Oct 2021 - Dec 2021

- Personal financial management projects related to all independent people will help them achieve their goals and the best budgeting. It's just for the Android platform.

[TTCU](#)

University Thesis - Front Developer, UI/UX Designer

Aug 2021 - Sep 2021: Now I'm Redesign

- The concept originated during the challenging Covid period, addressing difficulties in student-university communication.
- It centralizes communication for students and professors, providing a platform for questions, sharing educational materials, and facilitating easier interaction among students and professors.

Bama-Décor

freelance Project, UI/UX Designer

July 2023 - Aug 2023

- This project was to find an employer and people who are experts in the domain of ornament and create an uncomplicated, clear, and convenient way for them. I
- I have experience creating flow user and wireframes, nice sitemap and competitor analysis, and Information Architecture.

Aria Health

Case Study - UI/UX Designer

Jan 2024: Now I'm designing

- Considering the problems in the field of health, I have decided to design a comprehensive application as a proposal and a professional case. Currently, I am working on creating its user flow.
